Education

B.E. in Information Science and Engineering *2023 – 2027*
RV Institute of Technology and Management
GPA: 8.2

Pre University *2021 – 2023*
Sri Vidyaniketan PU College
Percentage: 87%

Projects

Netflix Clone *HTML, CSS, JavaScript, React, SQL, Firebase*

- Developed a Netflix clone with a sleek, responsive UI inspired by the original platform.
- Implemented user authentication and content browsing by genres using real-time data from TMDB API.
- Features include movie trailers, hover previews, and personalized content sections.

Finance Tracking System Using Java *Java, MySQL*

- Developed a Financial Tracking System to manage income, expenses, and savings efficiently.
- Features include real-time transaction logging, budget categorization, and monthly financial summaries.
- Provides a user-friendly interface with data persistence and secure input handling.

Binary Search Visualizer *Python, Tkinter*

- Created an interactive Binary Search Visualizer demonstrating the algorithm step-by-step.
- Features include input validation, real-time graphical updates, and user-friendly controls.

Task Management System *Python, SQL*

- Developed a system to create, update, and track daily tasks efficiently.
- Features task categorization, status updates, due date tracking, and prioritization.

Skills

Languages: Java, Python, C, SQL, HTML, CSS, JavaScript, React
Frameworks: Tkinter, Pygame, Java Swing
Tools: Eclipse, VSCode

Certifications

- Java Programming — Infosys Springboard
- DBMS — Infosys Springboard

- Data Structures in Java — Infosys Springboard

- Introduction to Generative AI — Google Cloud and Coursera

- Linked Lists — Mindlusters

- Basic Programming in Java — HackerRank

Experience

Fantomcode Hackathon
Actively participated in a hackathon, collaborating with a team to develop innovative software solutions under tight deadlines. Gained hands-on experience in rapid prototyping, problem-solving, and applying cutting-edge technologies. Enhanced teamwork, time management, and technical skills.
